We are proud to say that "I Don't Wanna Fall In Love" is the first music video in Iran to be mostly generated using artificial intelligence (AI). This video was created using advanced AI algorithms that analyzed and interpreted the music track and the story that we wrote. The use of AI in music videos represents a new frontier in creative expression, and we are excited to be at the forefront of this innovative technology in Iran. We hope you enjoyed this unique and immersive video experience.
