If this memo is authentic, it is extremely concerning especially since this is not the first time the Iranian regime's mouthpiece has appeared to have sensitive U.S. government information recently while Congress is kept in the dark. I have requested transparency from the State Department on the ongoing Robert Malley saga and will continue to demand answers.

Regarding this latest chapter, I am very concerned about how the regime got this potentially authentic document and what other sensitive or

classified information they may have. The State Department needs to do top to bottom security review, because I am concerned they have a leak.

این اولین بار نیست که سخنگوی جمهوری اسلامی اطلاعات حساس دولت آمریکا را در اختیار دارد. من

بسیار نگران هستم که رژیم چگونه به این سند دست یافته و چه اطلاعات طبقه‌بندی شده دیگری
